

Best Classes @ Your Home

It is high time we have overthrown the traditional methods and adopted a new learning experience in our education system. We, at Your College Thodupuzha, are happy to announce that we have proudly introduced an online learning using interactive Intelligent panel for the first time in Idukki District.

We facilitate virtual learning for the children with the same class room experience at the convenience of learning from home. We provide all the real time learning experiences of asking questions, getting clarified, Class tests, Assessments and Parents Meeting- all set up to be done on online platform.

Students have the convenience of attending the recorded classes later.

The backbone of Your College is the Legacy of 30 years in Education with thousands of shining stars in different careers in the state itself. Experienced teachers, student-centered training that understands each child's tastes, abilities, and weaknesses add to our strength.

We offer Tuition classes for 8,9,10, + 1, + 2 (State & CBSE) and Medical , Engineering and IISER (Indian Institute of Science Education and Reserch) entrance coaching classes.
